# PREFA ROOF SYSTEMS

**LIGHT-WEIGHT**  
10% WEIGHT –  
100% QUALITY.  
YOUR HOUSE WILL  
THANK YOU!

**COLOUR-RESISTANT**  
WITH PREFA, THE  
COLOUR OF YOUR CHOICE  
STAYS JUST THAT!

## BEAUTIFUL

BEAUTY IS IN THE EYE OF THE BEHOLDER.  
AND PROUDLY DISPLAYED ON YOUR ROOF.

The roof plays a central role in architecture. It can radically change the look of a house. Gable roof, hip roof, mono-pitched roof, dome or barrel roof—exercise your creative freedom with no holds barred! **PREFA aluminium roofs allow you to create flexible solutions for modern architectural designs** where you can feel right at home.

## RENOVATION MADE EASY!

WITH A PREFA ALUMINIUM ROOF, YOU SAVE YOURSELF TIME, STRESS AND HAVING TO PAY FOR AN EXPENSIVE SUBSTRUCTURE.

Old house, new roof—it sounds simple enough, but covering a roof with traditional roof tiles can get incredibly complicated and expensive. All too often, the old roof structure needs to be equipped with expensive substructures and reinforcements to cope with the extremely heavy load of modern roof tiles. But this is precisely where you can save money—literally! With the much lighter PREFA aluminium roof, there's virtually no need to make any additional reinforcements.

Product: PREFA rhomboid roof and  
façade tile 29 × 29  
Colour: anthracite P.10 | stucco  
Location: Slovenia  
Architect: Robert Ramovš  
Installed by: Martinič Borut s.p.

FD.TEC FREQUENCY  
DAMPER STRIPS

## FD.TEC TAKES THE MOMENTUM OUT OF SOUND

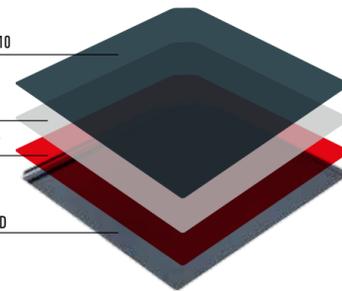

PREFA's unique FD.TEC frequency damper technology reduces unwanted frequency ranges to a minimum, and prevents certain sound emissions to a large extent. The purpose of the FD.TEC frequency damper strips attached to the back of all small-format PREFA roof elements is to absorb frequencies that can be caused by rain and hail.

COIL COATING P.10

PRIMER  
PRE-TREATMENT

PREFA RHOMBOID  
ROOF TILE

## P.10 COLOUR-FAST SURFACE

With PREFA P.10, we have developed a surface that meets even the highest quality standards. The PREFA P.10 surface coating is the ideal complement for many PREFA products. The result is a material which withstands external influences and stresses and at the same time is incredibly light and stable, offering a wide range of planning and design possibilities.

# PREFA FAÇADE SYSTEMS

**GUARANTEED  
RUST-PROOF!**  
PREFA IS HIGHLY  
RESISTANT  
AND DOES NOT RUST!

**ENVIRON-  
MENTALLY-  
FRIENDLY**  
ALUMINIUM IS  
FULLY RECYCLABLE!

## COMPLETE SYSTEM

PERFECTLY COORDINATED: YOUR PREFA COMPLETE SYSTEM CONSISTING OF ROOF, GUTTER, FAÇADE AND SOLAR SUBSTRUCTURE.

PREFA is not just the strong roof specialist, but also produces high-quality roof drainage systems, façades and solar substructures. With over 4,000 different aluminium products, we offer the ideal complete solution for creative and comprehensive roof and façade designs.

## BREAK-PROOF

RESISTS EVEN THE WORST WEATHER CONDITIONS. A PREFA ALUMINIUM ROOF DOES NOT BREAK!

Even if temperatures take a nose dive or snow levels increase unrelentingly, you can sit back and relax in complete peace of mind. Because your PREFA aluminium roof is highly resistant. Even heavy snow loads pose no problems at all for our roofs. And breaking can be completely ruled out. Aluminium roofs are immune to differences between day and night temperatures and therefore to fluctuations between thawing and freezing.
